A Word From Molham Team Chairman

It wasn't an ordinary year, neither in its disasters nor in your remarkable response. It wasn't like any other year, not with millions being tested with severe injuries and loss, nor with your passing of tests specially tailored by the Lord of the Worlds with your wealth.

It has been a year filled with losses, where you gained the prayers of thousands who suffered. Through your great stand, as we've always known you, you've been generous and noble, with a humanity that knows no bounds. You surpassed limits with your goodness, boundaries we do not recognize. After answering the call for help from those left stranded after the earthquake on the 6th of February, your donations and funding took us beyond borders to be with our people in Syria and Turkey after a devastating earthquake. We decided to halt campaigns for this leap year practically, not numerically. The idea is convincing after all these disasters. Who would return to donate and support this year after all these trials? You responded as if it were the first disaster of the year.

Throughout the year, we hear the prayers of mothers, witness the laughter of children, and express gratitude until we feel unworthy of it all. How can we possibly merit such appreciation as we navigate between these prayers and laughter, thanks to the remarkable individuals, the unsung heroes in this endeavor... You!

We wish you could hear the prayers and see the laughter to understand that what you do is invaluable, and that god has entrusted you with something great, so there must be a great reward for you. We hope that god accepts from us and from you. You are the transcendent good beyond borders, and every year, we live up to your trust in us... We love you

Sincerely,
Atef Nanoua

Catastrophe of Syria and Turkey Earthquake

Earthquakes, floods, hurricanes, wildfires, and wars have claimed the lives of thousands, leaving millions homeless, without food, water, or medicine. On the sixth of February 2023, we woke up to the disaster of the earthquake, which left thousands dead and hundreds of thousands of homes destroyed. Its passing was not easy; it was filled with numerous trials and tragedies, which we tried our best to respond to promptly. Whether in Syria, Morocco, Libya, or Turkey, we stood ready to help.

Molham Team contributed to the earthquake response in northern Syria and southern Turkey by providing support to the affected individuals on various fronts. We assisted over 150,000 affected individuals, including 50,000 individuals evacuated from the affected areas in southern Turkey. Cash distributions were made to beneficiary families, and shelter centers were established in northern Syria, along with providing essential supplies to displaced families. We also supported rescue teams and hospitals, established medical points, and implemented other response measures required during that time.

Earthquake Response interventions

Distribution of food parcels to rescue teams.

Preparation of shelter sites for more than 1718 families totaling 169,291 individuals.

Transportation of the affected and the sick in coordination with hospitals and shelter centers through hotlines.

Medical assistance:

- Including emergency medical care and surgeries
- provision of fuel for medical centers and hospitals, anesthesia, surgical consumables, medications for major surgeries, and mobile clinics.

Humanitarian aid comprises:

- Distribution of emergency kits to 16,835 families.
- Direct cash assistance to 241 families.
- Provision of heating materials for the affected.
- Coffins for the victims.

Campaigns

A lot of events occurred and campaigns were launched in response to the desperate need of displaced families by providing assistance and relief.

In addition to many other immediate and urgent response campaigns in northern Syria and asylum countries.

Aiming to serve families and provide them with needed support and aids

Shelter

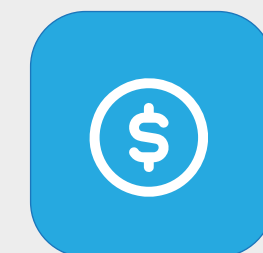

Shelter program in 2023 managed to turn the tent into a thing of the past for many families in northern Syria, culminating their efforts in the construction of more than 1414 houses, embracing over 378 families of orphans and individuals with special needs. The team executed over 2000 residential houses according to the building code specified for the region, with appropriate standards for displaced persons and consideration for the injured and affected individuals from the earthquake in northern Syria.

This was carried out under major campaigns of the "Until the Last Tent" and "Qadrin Fund" launched by the Molham team for the reconstruction of devastated areas affected by the recent destructive earthquake. This intervention reflected in the main projects and locations of Halal Harim, Armenaz, Qadrin Azaz and Barisha 3.

Education

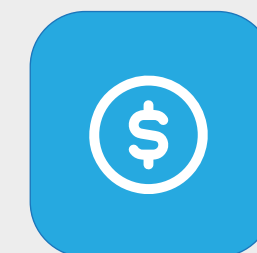

One of the notable achievements of the Education program this year was the opening of the Gaza – for bright generation School, which included various educational facilities such as a library, laboratory, and space for artistic activities. The school welcomed over 1500 students, including orphans and displaced individuals, and provided employment opportunities for many of teachers and academia staff.

Additionally, the Education program continued to support the education of over 100 university students, ensuring their success and graduation this year. Furthermore, the team provided study opportunities for over 2000 students enrolled in multiple schools managed by the team, such as Molham Orphans School, Fahd Al-Rai School, Gaza School, and Aرسال School in Lebanon. Moreover, the team launched campaigns throughout the year to support individual cases of students in their journey of education.

Health

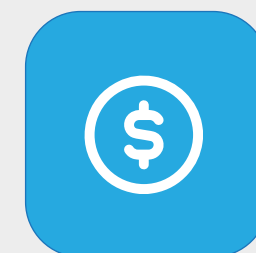

Amidst thousands of calls for help, addressed to the Health program, in addition to hundreds of urgent and routine surgeries, medications, hearing aids, and doses for cancer patients and other types of treatments were provided to over 2687 medical cases during the year 2023 in Syria and Turkey. Medical assistance was provided along with individual medical sponsorships. All of the aforementioned efforts contributed to alleviating the pain of those we could help.

In this year, the Molham Team also inaugurated the Cancer Patients Reception House in Adana, Turkey. This establishment was urgently needed to accommodate cancer patients from northern Syria seeking medical treatment in Turkey, following a significant advocacy campaign to support them, organized as part of the Molham Team's initiatives. The center has a capacity to accommodate 48 patients and is spread across three floors, providing dedicated spaces for men, women, and child-friendly areas

Events

As for the Events department, it serves as the team's outlet and beautiful spirit; it is the department that brings happiness to children and adds joy to their innocent faces, becoming a focus of attention and concentration for them. This year, the department organized hundreds of events of various kinds in the camps of northern Syria and refugee countries, including graduation ceremonies, birthday parties, Eid festivals, newborn celebrations, and the distribution of sacrifices and alms contributed by the families of martyrs and deceased individuals.
